WEDDING INFO & PRICING

A Moment Happens in a Flash...its Photograph Lasts a Lifetime. Capturing a Moment in Time to Treasure for All Time.
Choosing a photographer can be overwhelming- here's an important tip: see a photographer's work start to finish, inside and out, sunny vs cloudy to know that they can create beautiful images *all day long*, anywhere!

Why consider LB PHOTOGRAPHY? (Laurie Hohman, photographer)

- **NO guessing game!** As your photographer, I don't just push a button and hope. I use manual camera & flash settings plus know how to work with natural and artificial light to ensure you receive beautiful images start to finish. I work hard to ensure the dress details aren't blown out, background isn't mucky, color is vibrant, & images are clean, sharp & beautiful. **VIEW weddings start to finish at www.LBportrait.com**
- **All Event Coverage - Don't fret about short time limits.** Enjoy Your Day! The day is reserved for you, we can create a timeline fit for you!
- **Open to your ideas, I want to capture your wedding the way you've always dreamed.** Have an idea? Awesome! I love new ideas!!! ☺ Start collecting them! You'll get a checklist to help.
- **Education, Experience & LOTS of variety!** Having photographed over 100+ weddings start to finish + having taken over 50+ in person classes with 50+ awesome photographers I've learned how to photograph a variety of styles & techniques, can work quickly at posing / camera settings / lighting so your day rolls smoothly with awesome pictures regardless of location / surprises. Education: college, PPA, PPO, LSPP, After Dark EDU and more.
- **A Mix of Lighting Techniques** for pictures you'll LOVE! Lighting is key to photography! Natural light isn't always perfect or we could all be great photographers ☺ Weddings use all types of lighting so having someone good with not only natural light but also with flash is a necessity inside & out. Flash helps create higher quality images in low light, helps capture a blue sky, avoids raccoon eyes, allows for pictures in the bright sun and for creative images that couldn't be created with natural light alone! Off camera lighting at receptions = wow ☺
- **Professional Storybook INCLUDED!** Many photographers only include a cd, then you have to take the time and expense to create an album risking discolored prints and poor lab quality. Having a professional keepsake album included ensures color and contrast accuracy, high quality paper and ink and pro finish for longevity plus it saves you time, hassle and cost in the end. Each album is custom designed! You choose your favorite images!

Creative Lighting

- **High Resolution Copyright Released CD INCLUDED!**
- **LOTS of Equipment + Emergency Equipment** – so no worries! Multiple high end cameras and lenses + tons of lighting tools are used throughout the day to be able to photograph a wide variety of locations creatively, without issue and at their best!
- **FILE BACKUPS** – Care is taken to protect your images with multiple types of backups. Average **2-3 WEEK TURNAROUND** for online gallery & CD!
- **You Matter 110%** - Photography is my not just a hobby but my job and passion so every wedding, every bride and groom, every photograph is important to me.
- **Your Involved Every Step of the Way!** You have a say in the timeline, pose ideas, approval of edits, choice of special effects, storybook pics & design. It's Your Day! ☺

PAGE 1 of 2 - SEE MORE INFO / **PRICING ON PAGE 2**

• **Touchups included – the icing on the cake!** I take the time to edit each image top to bottom. I see many photographers skip edits like shiny faces / skin rolls, etc - I don't. I pose / light for best results, then edit for excellence! **Color Correction (fixing orange/blue tint)** is done so storybook photos flow together seamlessly.
